Some broken hearts

[Verse]
```
          A      E
Coffee black, cigarettes
                              A
Start this day like all the rest
D                                   A
First thing every morning that I do
        E
Is start missing you
```

[Chorus]
```
A           E
Some broken hearts never mend,
              A
Some memories never end,
                D
Some tears will never dry,
E                             A
My love for you will never die
```

[Verse]
```
      A            E
Rendezvous in the night
                              A
A willin’ woman to hold me tight
    D                           A
But in the middle of loves embrace
  E
I see your face
```

[Chorus]
```
A           E
Some broken hearts never mend,
              A
Some memories never end,
                D
Some tears will never dry,
E                             A
My love for you will never die
```
